

COATING INSPECTOR LEVEL 2

[PLAY COURSE OVERVIEW VIDEO](#)

Corrosion eats or degrades metals and their properties; it is an electrochemical process and typically occurs when metals are exposed to an environment that permits water or moisture (electrolyte) to come into contact with them. Corrosion is a serious problem in the oil & gas industry that, if ignored, leads to the falling of pipes and equipment, resulting in incidents and catastrophic events affecting both oil companies and the environment. To protect the metal from corrosion the industry uses the painting or more correctly protective coating as a first line of defense against corrosion.

The IOGS/CCI Level 2 Coating Inspector course will educate the students about the protective coating used in oil & gas industry and develops their coating inspection and quality control work skills.

DEVELOP

ACHIEVE

ADVANCE

Gain the skills necessary to apply for jobs in the oil & gas industry's protective coating/painting work field

Achieve a symbolic qualification and enhance your resume to stand out from the crowd

Advance your career towards achieving your personal and professional goals

COURSE AND EXAM FEE

USD 475/-

LEARNING MODE

Online (Course and Exam)

What You'll Learn

- ✓ Learn the concept of corrosion control through the protective coating
- ✓ Know the importance of surface preparation and the methods used
- ✓ Understand the degree of surface cleanliness and roughness
- ✓ Get an understanding on coating types and constituents used
- ✓ Learn the methods used for the coating application
- ✓ Learn the various types of coating defects, their cause and remedies
- ✓ Gain a broad knowledge of coating application, inspection and QA/QC requirements and methods used

And Much More...

WHY STUDY WITH IOGS?

1

CONVENIENT

You can study ONLINE with IOGS, which allows you to learn from home, work, or while traveling.

2

AFFORDABLE

Our courses are 50 to 60% lower in price than similar training courses provided by other training providers. In addition, when compared to traditional classroom-based courses, learning online saves an average of 50% on venue and travel costs.

3

FLEXIBLE

You can study at your own pace and whenever it is convenient for you. You can also create your own timetable for your study to balance your work and lifestyle.
